Accident Check

Accident data is collected from public and private sources throughout the 50 states, the District of Columbia, Puerto Rico, Guam, the Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. These accidents are reported to BoatHistoryReport.com and entered into our database. Our Accident Database also includes minor accidents. However, we do not have information on all accidents. Therefore, it is recommended that a complete inspection or survey be completed by a professional.

 **Clean Accident Report:** Our records show that the vessel has **not** been involved in an accident.

Boat History Report depends on public and private sources for its accident data. Therefore, all accidents are not reported to Boat History Report.

Salvage Check

Salvage data pertains to boats that have sustained severe damage. This damage occurs as a result of Hurricanes, Sinking, Fire, Collision, and many other factors. Re-builders purchase these at auctions to then resell without disclosing the Salvaged History of the boat.

Clean Salvage Report

Not reported to Boat History Report as salvaged.

 <u>HIN:</u>	SERT69811495
 <u>Location:</u>	No salvage reported.
 <u>Salvage Date:</u>	No salvage reported.
 <u>Description:</u>	No salvage reported.

Environmental Lien Check

If a boat causes damage to any environmentally protected area, an environmental lien could be placed on the boat. Environmental liens can result in the seizure of the boat and fines in excess of \$100,000. When a vessel causes damage to protected natural resources, such as seagrasses, coral reefs, sponges, and other marine environments, fines are issued to the vessel by state and federal agencies. It is not unusual for these fines to be in excess of \$100,000. **For example**, in the Florida Keys National Marine Sanctuary a grounded vessel can be charged up to \$100,000 per day. Because of the severity of these fines they often go unpaid, thus creating an environmental lien on the vessel. If the fees go unpaid, the state or federal agency can seize the vessel at any time. This can occur even if the vessel's previous owner caused the environmental damage!

Clean Environmental Lien Report

Our records show that the vessel has **not** been involved in an accident that is indicative of an existing Environmental Lien.

 <u>Seagrass Damage:</u>	NO Seagrass Damage Records Found
 <u>Coral Reef Damage:</u>	NO Coral Reef Damage Records Found
 <u>Sponge Damage:</u>	NO Sponge Damage Records Found
 <u>Other Marine Resource Damage:</u>	NO Other Marine Damage Records Found
 <u>Sea Bottom Damage:</u>	NO Sea Bottom Damage Records Found
 <u>Damage to National Marine Sanctuary:</u>	NO Damage to National Marine Sanctuary Records Found

Be sure to check with local authorities to find out if an unreported environmental lien exists on this vessel.

U.S. Customs and IRS Criminal Seizure Check

Boats are constantly seized by the U.S. Customs due to illegal activities. Many times these boats incur serious damage during the seizing activity. Many people unknowingly buy one of these damaged boats.

Clean Seizure Report

Our records show that the vessel has **not** been involved in a seizure.

 <u>HIN:</u>	SERT69811495
 <u>Location:</u>	No seizure reported.
 <u>Seizure Date:</u>	No seizure reported.
 <u>Vessel Description:</u>	No seizure reported.

Recall Check

Many boats manufactured often contain dangerous, potentially fatal flaws. Due to safety concerns, manufacturers perform recalls every month. Numerous flawed boats exist in the marketplace without having been recalled or corrected.

Clean Recall Report - Our records indicate that the manufacturer has not reported any recalls. Be sure to check with the manufacturer or an authorized dealership to find out if recalls exist that are not reported.

Warranty Check

Many boat manufacturers provide a limited or lifetime warranty on the vessels they make. It is important to understand the warranty information prior to purchasing a new or used vessel.

Warranty Information Found: The manufacturer(s) listed below issue the following warranties on their vessel.

The first three characters of the HIN designate the manufacturer of the vessel. The first three characters of the HIN you have entered, **SER**, designate SEA RAY BOATS INC as the manufacturer. However, the following makes are all of the same manufacturer:

- BRUNSWICK FAMILY BOAT CO INC

Because of this, multiple warranties may be listed below. Carefully read through the warranty information to determine if they apply to the make and model of your vessel.

The Boat History Report Warranty Check provides an approximation of current warranty coverage for new vessels. Because warranty coverage changes from year to year you should contact the manufacturer or an authorized dealership for more information. Additionally, events in the vessel's history could void its warranty, and are not accounted for in the Boat History Report Warranty Check. These events include, but not limited to, reported or non-reported accidents, hurricane damage, any other damage, or ownership transfers which may decrease or void warranty coverage.
